

# 2021 POND

A beautiful garden isn't complete without a pond. Having a pond with colourful fish varieties can give your garden that extra something.

Sinking feed

Floating feed

Semi floating feed

Flavoured with insect meal

Prebiotic and/or Probiotic

Strengthens the colour of the fish

Highly attractive feed

**Alltech**® COPPENS

DEDICATED TO YOUR PERFORMANCE

# AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

- + Optimizes growth
- + Supports immune response
- + Optimizes digestive function
- + Contributes to mucous barrier protection
- + Contributes to external barrier protection

## BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

IMPROVED  
INTESTINAL  
FUNCTION

## BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

IMPROVED  
PERFORMANCE

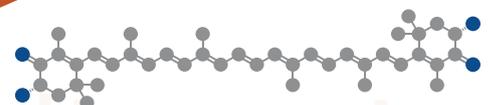

## AQUATE™

100%  
ORGANIC  
MINERALS  
(TRT)

## ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.

HELPS  
MAINTAIN  
THE IMMUNE  
SYSTEM

**Alltech®** COPPENS

- Balanced nutrients
- Can be fed all year round
- Low pollution

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	3.0 mm
Fat	6.0	6.0 mm
Crude fibre	3.4	
Ash	5.1	

### Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Our Pond Pellet is a complete feed for ornamental fish. Thanks to its high digestibility, water pollution is minimized and thus helps to keep your pond clear. The nutritional values of Pond Pellet meet the requirements of pond fish to keep them in good condition. You can use this diet during the entire season.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.  
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.  
For the exact values we refer to the label.

- High digestibility
- Contains astaxanthin
- Can be fed all year round

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	3.0 mm
Fat	5.0	6.0 mm
Crude fibre	2.2	
Ash	6.0	
Astaxanthin (mg/kg)	3	

Vitamins added	
Vitamin A (IE/kg)	10000

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Astax Pellet is a complete feed for ornamental fish. The added pigments in this diet support the natural colours of the fish. This feed contains high quality ingredients which support a good digestion and this minimizes the water pollution.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

- Winter feed
- High water stability
- Highly digestible
- Balanced nutrition

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	4.5 mm
Fat	9.0	6.0 mm
Crude fibre	1.9	
Ash	5.0	

### Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Premium Coarse is a complete feed especially formulated for use during the winter period. Due to lower water temperatures the metabolism of the pond fish slows down and the fish are not willing to swim to the surface anymore. Therefore, we made Premium Coarse a sinking diet.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.

For the exact values we refer to the label.

- Packed with attractants like fish meal and oil
- High in animal protein
- Larger sizes are waterstable up to six hours

### COMPOSITION:

Analyses (%)		Sizes
Protein	34	3.0 mm
Fat	15.0	6.0 mm
Crude fibre	1.5	
Ash	5.0	

### Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Premium Select is a sinking, waterstable, complete feed for sturgeon. This feed is based on high quality ingredients for a high digestibility and enables good growth. This feed includes fish proteins which makes the feed very attractive for sturgeon.

The Premium Select contains all necessary vitamins, minerals and trace elements to keep sturgeon healthy and in good condition.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

- Contains spirulina and astaxanthin
- Includes wheat germ
- Balanced nutrients
- Can be fed all year round
- Flavoured with insect meal

### COMPOSITION:

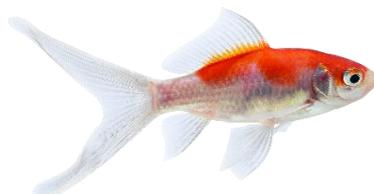

#### Analyses (%)

Analyses (%)		Sizes
Protein	31	3.0 mm
Fat	5.0	6.0 mm
Crude fibre	2.6	
Ash	6.2	
Astaxanthin (mg/kg)	1	

#### Vitamins added

Vitamin A (IE/kg)	10667
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Allround Mix is a mix of three complete feeds. This combines all the good elements of our Astax Pellet, Staple and a yellow coloured pond pellet. Together this results in a colourful mix with several unique ingredients: Astaxanthin, spirulina and wheat germ.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

- Contains spirulina
- High digestibility
- Good all year round
- Flavoured with insect meal

### COMPOSITION:

Analyses (%)		Sizes
Protein	31	6.0 mm
Fat	5.0	
Crude fibre	2.8	
Ash	6.3	

### Vitamins added

Vitamin A (IE/kg)	11000
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Our Duo Colour is a mix of two complete pond feeds. This mix contains the best of our Astax Pellet and Staple. Thanks to high quality ingredients, this diet is easily digestible which helps minimize water pollution.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.

- Low energy level for perfect for body shape
- Contains spirulina
- Good all year round
- Flavoured with insect meal

### COMPOSITION:

Analyses (%)		Sizes
Protein	32	3.0 mm
Fat	5.0	6.0 mm
Crude fibre	3.4	
Ash	6.7	

### Vitamins added

Vitamin A (IE/kg)	12000
-------------------	-------

### PERFECT FOR FEEDING AMONG OTHERS:

### APPLICATION:

Our Staple is a complete feed for ornamental fish. It contains high quality ingredients and cereals. Furthermore, this diet is enriched with natural Spirulina. Because it is a water stable floating feed, you can observe your fish's eating behaviour easily and water pollution is minimized.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the fishes eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C the fishes have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed the fishes if the water temperature is below 5 °C.
