

LIKRA

animal nutrition

Advantages of LIKRA layer feed:

- high egg shell quality
- best egg quality
- market-oriented yolk pigmentation
- high laying performances

Export

Poultry

products for chicks, pullets, laying hens and specialties

status: 06/2020

LIKRA J2	LIKRA layer 0,5%	LIKRA layer 1%	LIKRA G 2-S	LIKRA G 200	LIKRA Schalenfit-A	LIKRA ACID liquid	LIKRA TOX
<i>mineralfeed for chicks and pullets</i>	<i>vitamin- trace element- Premix for broiler</i>	<i>premix with methionine for layers</i>	<i>fully equipped premix for layers</i>	<i>premix for pullets and laying hens, suitable for organic feeding</i>	<i>Specialty to improve the eggshell</i>	<i>fluent acid for application in the drinking water</i>	<i>mycotoxin binder</i>
<ul style="list-style-type: none"> - macroelements, vitamins and trace elements - with methionine - optionally with coccidiostats 	<ul style="list-style-type: none"> - high-performance premix with vitamins and trace elements - with Vitamin C for stress reduction - with phytase for better use of phosphorous - with pigments for yolk colouring - for feed plants only! 	<ul style="list-style-type: none"> - premix with vitamins and trace elements - with pigments for yolk colouring - with methionine for egg-sizes in line with the market 	<ul style="list-style-type: none"> - mineral feed for homemixing farms - contains macroelements, trace elements and vitamins - with pigments, phytase and methionine 	<ul style="list-style-type: none"> - certified for organic production - contains macroelements, trace elements and vitamins 	<ul style="list-style-type: none"> - hardens the shell for the whole laying-period, especially from the 40th week - less cracked eggs and hairline cracks 	<ul style="list-style-type: none"> - for hygienisation of the poultry's drinking water - strong effect against molds 	<ul style="list-style-type: none"> - toxic metabolic products of field and storage fungi reduce performance and increase the susceptibility to disease - LIKRA TOX binds, destroys and inhibits toxins and strengthens the body's defences of the animal
DOSAGE: 2%	DOSAGE: 0,5%	DOSAGE: 1%	DOSAGE: 2%	DOSAGE: 2%	DOSAGE: up to 2,5% into the laying feed	DOSAGE: 2 - 3 kg/1000 l drinking water	DOSAGE: 2 - 3 kg/t feed

LIKRA

animal nutrition

Advantages of LIKRA- Premixes:

- including all necessary vitamins and trace elements
- rawmaterials and feed additives from EU-suppliers
- including phytase for saving money in compound feed
- including antioxidants
- including special mineral and/or plant-based carriers to prevent separation and hygroscopic process
- supplement with individual additives upon request possible
